

A man with glasses and a beard, wearing a blue suit, is leaning over a woman with blonde hair, wearing a beige blazer. They are both looking down at a device held by the woman. The background is blurred, suggesting an office or meeting environment. The image is partially obscured by a large red diagonal shape that covers the left and bottom portions of the frame.

Brand overview

A DCC BUSINESS

	Signage solutions	AOPEN is a hardware manufacturer of digital signage media players and all-in-one touch displays. AOPEN is part of the Acer Group and handles the B2B side of digital solutions. With its robust mini-PCs, AOPEN hardware is the power behind hundreds of thousands of digital solutions worldwide!
	Displays	Avocor designs, develops, and manufactures leading-edge displays for both business and educational environments. From training rooms to large meeting rooms, Avocor enables inspiring collaboration through the latest collaboration tools.
	Unified collaboration solutions	Barco, headquartered in Kortrijk (Belgium), is a global company that leads in visualisation, networking, and collaboration technologies. With these innovative solutions, Barco advances healthcare, business, and the entertainment industry. Barco's success is driven by more than 3,000 dedicated 'visioneers', who passionately work to bring about change through technology.
	Unified Collaboration solutions, Signage Solutions, Displays, Projection	BenQ is a global leader in human technology and solutions. It represents the business vision "Bringing Enjoyment 'N' Quality to Life" and stands out through its unique philosophy "Because it matters". BenQ enables people to work more efficiently through innovative products, services, and solutions. With a wide product portfolio such as digital projectors, professional monitors, interactive large format displays, and wireless presentation solutions, BenQ is one of the most prominent players in the market.
	Pro Audio solutions	For over 50 years, Bose Professional has been developing audio systems that are easy to design, install, and operate for performance, commercial, and conferencing applications. By collaborating with AV integrators, system designers, installers, and consultants, Bose develops professional solutions that provide unforgettable audio experiences for workplaces, places of worship, universities, restaurants, shops, holiday parks, hotels, swimming pools, ice baths, and more. Bose Professional offers advice with passion, quality, global support, and a standard 5-year warranty.
	Signage solutions	BrightSign LLC, the global market leader in digital signage media players, is headquartered in Los Gatos, California, with offices in Europe and Asia. BrightSign designs media players and provides free software and cloud network solutions for the global commercial digital signage market, serving all vertical segments. BrightSign products are known for their distinctive reliability, affordability, leading-edge technology, and unmatched performance.
	Essentials	C2G, a brand of Legrand I AV, is a global manufacturer of high-performance cable and connectivity solutions. They use the highest quality components and the latest technologies to ensure maximum performance for cables that meet the latest industry specifications.
	Essentials	Chief, a brand of Legrand I AV, has been delivering proven products and service since 1978. Chief offers a complete range of mounting solutions for projectors, displays, monitors, and direct view LED technologies – all easily accessible via Mountfinder™. With numerous product awards and patented designs, Chief brings innovative features to its mounts and is known for products of high quality that are easy to install and maintain.
	Essentials	Dacomex provides high-quality, affordable AV furniture and mounting systems. As a specialist in professional rolling TV stands and wall mounts, Dacomex offers practical and durable solutions for modern work, learning, and meeting environments. The products combine robust quality with ease of use, flexibility, and excellent value for money – exactly what AV professionals are looking for. With Dacomex, you choose functionality without compromise.
	Projection	Da-Lite, a brand of Legrand I AV, was founded in 1909 by Adele De Berri, the inventor of the original 'Silver Screen'. Da-Lite is the global market leader for projection screens for both residential and commercial applications of high quality. Da-Lite produces projection fabrics, screens, and accessories for organisations and venues worldwide. Da-Lite projection technology is specified for the most demanding installations.

	Unified Collaborations solutions	Enghouse Lifesize video conferencing is a 4K solution that seamlessly integrates with multiple platforms for your meetings, including Microsoft Teams, Cisco Webex, Google Meets, and Zoom. The platform offers scalable solutions for various room sizes and configurations. Interactive features also foster collaboration and engagement. Enghouse Lifesize provides a unified interface with all your meetings in one secure location, allowing you to manage a complex schedule safely and efficiently.
	Unified Collaborations solutions	EPOS designs, manufactures, and sells premium audio and video solutions for business professionals worldwide. EPOS applies globally leading research into how the brain processes sound, specifically aimed at improving cognitive performance. EPOS BrainAdapt Technology, featuring leading Voice Pick-up and EPOS Hybrid Adaptive ANC, ensures the best experience in the modern open office.
	Displays	Hisense Commercial Display offers a wide range of display solutions that attract viewers' attention and create a unique interactive experience for users. Whether it's a huddle space, boardroom, or reception area, Hisense has leading commercial displays to enhance both communication and collaboration, ranging from interactive whiteboards to digital signage and LED displays.
	Unified collaboration solutions	Hybrid working opens new opportunities for you and your clients. With Poly's inclusive technology, such as people-centric video and distraction-free audio, everyone works intuitively. As part of HP, Poly designs professional equipment for office and personal spaces. With high-quality headsets, speakerphones, and meeting bars, you can seamlessly integrate with all UC providers. With HP and Poly, you stand out!
	Room booking	Humly is the most innovative brand in the market for booking meeting rooms and workspaces. The Humly Room Booking Display has won multiple design awards and is known for its excellent user-friendliness. The backend system, equipped with unique functionalities, is easy to use across various platforms such as Microsoft Office 365, Microsoft Exchange, and Google Workspace.
	Essentials	Kramer's audiovisual experiences enhance creativity, collaboration, and engagement. From signal management to advanced cloud-based communication, collaboration, and control solutions, Kramer creates audiovisual experiences that are more engaging, inclusive, and connected than ever before.
	Displays	LG Electronics is a global player in Commercial Display and innovates in the fields of displays, LED, and Hospitality TV platforms, including streaming solutions. LG Electronics is also committed to a greener future, from reducing its ecological footprint to promoting social responsibility. LG is dedicated to building a greener, more sustainable future for generations to come through innovation, collaboration, and responsible stewardship.
	Essentials	LocknCharge is a company dedicated to the design, manufacturing, and functionality of security, charging, and transport solutions of the highest quality for mobile device deployments. Their vision is to be globally recognised as the most innovative and trusted brand in developing solutions for managing mobile technology deployments. Their mission is to make the lives of schools and organisations implementing mobile device technology easier.
	Networking	Luxul, a brand of Legrand I AV, is a leading innovator of easy-to-deploy professional IP network solutions for custom installation professionals. Luxul products are designed for use in residential and commercial applications and offer a complete range of solutions that make network design and installation simple.
	Essentials	Middle Atlantic Products, a brand of Legrand I AV, founded in 1979 in Fairfield, NJ, has grown into a globally leading manufacturer of AV racks and furniture. AV professionals rely on Middle Atlantic's furniture and power products for complete AV systems.

NETGEAR 	Networking	With more than 25 years of networking expertise, NETGEAR offers a broad range of products designed for VoIP, Power over Ethernet (PoE), wireless local area networks (WLAN), multi-gigabit connectivity, and remote cloud management. NETGEAR is the leader in network switching and advanced wireless access points. AV made simple!
NETIO	Essentials	NETIO Products is a manufacturer of smart Power Distribution Units (PDUs) and power strips. Committed to innovation and exceeding customer expectations, our products and solutions prioritize remote management, energy efficiency, reliability, and security, enabling businesses to optimize their energy management and improve their operational performance. Thanks to an open API architecture, seamless integration with existing systems is guaranteed, even with our Cloud solution.
 OCHNO	Essentials	Welcome to the smart meeting room with smart outlets. With OCHNO outlets, users can effortlessly and quickly join meetings, switch between their own devices and permanent video conferencing systems, seamlessly share media content, and charge devices – all with one cable! OCHNO distributed by OCS-BACHMANN.
Panasonic	Projection, displays	Panasonic has been a leader in LED projector innovation for decades. The unrivalled DLP and LCD projectors from Panasonic are designed for maximum reliability and minimal maintenance. With technologies for 24/7 operation, high image quality, and durability, as well as the largest selection on the market, there is a Panasonic projector for every application. Panasonic's portfolio of monitors is also available through Exertis AV.
PHILIPS	Displays	Philips Professional Display Solutions: custom solutions for every sector. They connect people with future-proof technology. Your vision, their foundation. Together with their customers, Philips brings evolution to the digital world without boundaries. Perfectly tailored to your unique needs.
 Promethean	Displays	Promethean creates interactive displays and educational software for teachers, students, and colleagues around the world. Learning and collaboration are essential to drive development. Their mission is to transform learning and collaboration. Education and the workplace are evolving rapidly – Promethean is ready to help customers get the most out of advanced technology and ensure they are future-proof.
 spectralink solving every day	Unified Collaboration solutions	As an award-winning leader in mobile technology, Spectralink has been transforming the way its customers' mobile workers operate and communicate for nearly 30 years. With its enterprise-grade, best-in-class mobile solutions, Spectralink is present everywhere its customers are, no matter where they work or how they need it. The Spectralink team, commitment to innovation, and passion within the company are the foundation for its success.
Unilumin	Displays	Founded in 2004, Unilumin is a pioneer in LED applications. With award-winning innovations and proven market solutions, Unilumin delivers sustainable and service-friendly products that meet the highest standards in performance and installation ease. As a leading global player, Unilumin operates across numerous sectors, including professional AV, retail, education, sports, events, control rooms, and smart city applications.
VADDIO A brand of Legrand	Unified Collaboration solutions	Vaddio, a brand of Legrand I AV, is the leading manufacturer of PTZ cameras, professional AV solutions, and a complete range of UCC products to connect people. Vaddio makes integration easy with an intuitive browser-based user interface and free remote management.
	Essentials	Vogel's Professional creates high-quality placement and mounting systems for videowalls, displays, monitors, tablets, and projectors. The products stand out for their functionality, safety, and ease of installation, and are used worldwide in various locations such as schools, airports, hotels, stadiums, and conference rooms. With the additional SmartMetals product line, you can be sure there is always a solution for your specific AV needs.

	Essentials	WyreStorm is a global leader in award-winning AV signal distribution and control solutions for a wide range of markets. WyreStorm specialises in providing innovative single-platform and hybrid solutions that are powerful, reliable, and simple. The solutions are tailored for both commercial and residential applications, including AV over IP, Unified Communications, traditional matrix switchers, home offices, and Essentials. WyreStorm leads innovation with its own R&D facilities and 24/7 technical support.
	Unified Collaboration solutions	Yealink is a strong global player in the world of Unified Communication & Collaboration. The quality and capabilities of its products make Yealink a key player in the industry. Yealink delivers innovative technology to ensure all (hybrid) communication runs smoothly throughout the working day. Solutions range from Microsoft Teams phones and premium headsets to customised professional video MTR conferencing solutions.
	Unified Collaboration solutions	Yealink offers not only industry-leading communication solutions but also a wide range of professional headsets specifically designed for hybrid workspaces, call centers, and office environments. These headsets combine crystal-clear audio with advanced noise-cancelling technology and an ergonomic design for long-lasting comfort. With seamless integration with Microsoft Teams, Zoom, and other UC platforms, Yealink headsets provide a true plug-and-play experience.

About Exertis AV >

Exertis AV distributes products and services from top brands

Exertis AV distributes products and services from top brands in the field of Unified Collaboration, professional audiovisual equipment, and all related accessories. With its extensive portfolio and added value, Exertis AV offers resellers who sell technology products a one-stop shop with complete solutions.

As a specialised distributor, Exertis AV has in-depth knowledge of the products. Exertis AV helps its customers strengthen their proposition and develop the market together.

Following the merger with Exertis Amacom, Exertis AV has its own supply chain organisation, allowing products to be delivered quickly and with the right care. Exertis AV operates with more than 500 employees in over 20 countries and is part of the Exertis Group, a wholly owned subsidiary of parent company DCC plc, a FTSE 100 company.
