

Simple Wins:
Two All-in-One Paths to Smarter Meetings

As hybrid work becomes the norm, businesses are moving away from complex setups and embracing simple, unified video conferencing solutions. Whether you prefer a TV + video bar configuration or a fully integrated collaboration board, Yealink offers two powerful paths to simplicity.

Two Simple Paths to All-in-One Success

Yealink Video Bar + MeetingDisplay

This solution combines Yealink’s **MeetingDisplay** with an **Android, Windows, or BYOD video bar**—bringing the best of modular flexibility.

Benefits

- 1 **AI-powered:** IntelliFocus and Noise Cancellation
- 2 **Hassle-free:** One console to control both devices, plus an easy-install, no-drill bracket for the video bar
- 3 **Flexible:** Android, Windows, or BYOD
- 4 **Digital signage coordination:** From meetings to messages—your screen knows when to switch.
- 5 **Centralized management:** One platform to manage both display and video bar

Yealink MeetingBoard Pro

Go all-in with a fully integrated board that brings together everything you need—**video and audio, touch display, and a digital whiteboard.**

Benefits

- 1 **Quick setup:** Fewer components, 10-min setup
- 2 **AI-enhanced AV:** Triple-lens camera and 16-mic array deliver immersive clarity
- 3 **Movable:** Mobile cart for shared and open spaces
- 4 **Expandable:** Available in 65", 75", and 86", with accessory support to scale across all room sizes
- 5 **Flexible system options:** Choose Android or Windows to fit your needs.
